Elite Technical — Client Overview

Prepared by Algo Acquisition · 5 November 2026 · tracking_clients client 254dc33b-4f9f-4712-9b6b-eca49c5a5ffc · HeyReach workspace 170370

1. The client

Elite Technical is an IT and engineering staffing firm (contract and direct hire) in Heathrow, Florida, with a large DC Metro footprint. 34 years in business, 400+ clients, 4,500+ placements, woman-owned (WOSB/WBENC), DoD Top Secret facility clearance with a dedicated FSO, and its own candidate-verification platform, InterviewMyCandidate.

- **Contact:** Joseph Monaco (jmonaco@elitetechnical.com); also Phil Mosca, J.J. Keller, Mike Gerardo
- **Algo team:** Moe (GTM engineer and strategist), John Paul (infrastructure), Rueban (closer)
- **Package:** Standard · objective: qualified discovery calls · avg engagement $25k · ~4-week cycle

ICP (onboarding form + Joseph's approval)

- **Companies:** 501–10,000 employees; **$100M–$1B revenue** (Joseph's hard filter for all campaigns)
- **Geography:** the form says DC Metro, then East Coast, then Midwest, with no West Coast. Moe later opened the newer campaigns to the whole US.
- **Buyers:** IT and engineering leaders, talent acquisition, contingent workforce and procurement
- **Dream accounts:** AeroVironment, TransMedics, Varonis, Tenable, Commvault
- **DNC:** 160 past clients (names only), applied to every list

2. Results so far (HeyReach, all time)

658	65	11	1
connection requests sent	accepted (9.9%)	conversations started	reply (not tagged interested)

Campaign	Live dates	Leads	Requests sent	Accepted	Accept %	Replies	Status
C1 Cleared Talent for New Federal Contracts (60-day awards)	Oct 30 – Nov 5	106	73	5	6.8%	0	Paused
C1b Federal contracts, 12-month award window	Oct 30 – Nov 5	221	170	9	5.3%	1	Paused
C9 Candidate Fraud in Technical Hiring (TA leaders)	Nov 2 – Nov 5	2,513	415	51	12.3%	0	Paused

Too early to judge replies: most accepted connections had not reached message 2 or 3 by the pause. C9 had the best acceptance rate (12.3%) and still has 1,808 leads never contacted. All three were paused on 5 Nov at Moe's request to make room for the recruiter campaigns.

3. Campaign inventory

Recruiter open-role campaigns (built 5 Nov) Draft

Talent Edge / Alcor open-role sequence (19.4% reply benchmark). Each lead is a hiring manager tied to a real posting from the last 30 days, with the role, company and a "someone with..." requirement written from that posting. There is no per-company cap. Head of Talent, Talent Director or VP People is used only where no hiring manager was found.

Segment	Leads	Companies	HeyReach	Loaded	Priority
Software Engineering	4,836	866	710042	~2,100	Best fit, first wave
IT Infrastructure & Support	2,817	912	710044	800	Best fit, first wave
Cybersecurity	1,500	450	710103	1,500 ✓	Best fit, first wave
Mechanical, Manufacturing & Quality	3,675	759	710108	0	Later wave
Electrical, Controls & Embedded	2,859	607	710046	0	Later wave
Data & AI	2,837	805	710104	0	Later wave
Enterprise Applications (ERP/CRM)	513	230	710107	0	Later wave
Cloud & DevOps	406	239	710105	0	Later wave
Total	**19,443**	**4,868**		**~4,400**	

Other campaigns from the 26 Oct proposal Draft, no leads

C2 Engineers for the Program Ramp (695767), C3 Security Talent Without the Fraud Risk (695768), C8 The Role Behind the Posting (695764), C10 New Seat, Fresh Team (695766). Not sourced; C8 is largely replaced by the recruiter open-role campaigns.

4. How the lists were built

- **Federal awards (C1/C1b):** USAspending and war.gov DoD awards matched to Blitz company records. The pool was small, about 150 qualifying companies, so we took 2–3 contacts each.
- **Candidate Fraud (C9):** Blitz hiring data on companies posting remote or hybrid tech roles. That gave 3,109 qualifying US companies and 2 TA leaders each.
- **Recruiter campaigns:** one Blitz job-posting pull per role family, about 7,350 company-segment matches after the filters. Hiring managers come from Blitz's contact search.
- **Biggest filters:** the $100M–$1B revenue rule removes about 36% of hiring companies. About 39% of the rest have no findable TA or hiring leader. The old region rule cut the pool by 44% before it was lifted.
- **Hygiene:** the DNC list, staffing, education, government and nonprofit exclusions, a check that no one is in two campaigns, and a HeyReach employer check before launch (116 job changes removed from C9).

5. Capacity

11 LinkedIn senders send roughly **190 connection requests a day**, 7 days a week, 8am–5pm New York time. The first recruiter wave (9,153 leads) is about 7 weeks of sending. All 19,443 recruiter leads would take about 15 weeks.

6. Open items

Item	Owner	Status
Finish loading the first wave (Software, IT) and build the GTM Sheets workbook (one table per segment)	Algo (new session)	In progress

Pre-launch checks: custom fields match the source files, employer freshness; then start 710042, 710044, 710103	Algo	Next
Confirm Elite can send a matching candidate profile on reply (message 1 says "we have a candidate who fits")	Elite / Joseph	Open
Confirm claims: 4,500 vs 3,000 placements; InterviewMyCandidate wording (no "guaranteed fraud prevention")	Elite / Joseph	Open
Several managers at one company receive the same open role (no per-company cap)	Moe	Accepted for now
Decide whether to resume C9 (1,808 uncontacted, best acceptance rate) and C1/C1b	Moe	Open
C9 exclusion settings were changed in HeyReach outside our setup; confirm they're intended	Moe	Open
Missing in tracking_clients: website, booking link, SDR profile defaults, client brief	Algo	Open
Delete unused HeyReach lists 1117916 and 1117917	Moe (UI)	Open
